

Information Standard

Ministry	Name of Standard	Code	Type of Standard	Year
Ministry of Construction	Technical code for computer software engineering in construction	JGJ/T 90-92	Industry	1992
	General software standard for management information systems of construction enterprises	JG/T165-2004	Industry	2004
	General software standard for geographic information system of engineering construction	JG/T 181-2005	Industry	2005
	Classifying and coding of construction products	JC/T151-2003	Industry	2003
	Urban municipal supervision and management information system –Rules for basic management grid division and coding	CJ/T213-2005	Industry	2005
	Urban municipal supervision and management information system –Classification of coding for urban management components and events	CJ/T214-2007	Industry	2007
	Urban municipal supervision and management information system --Geocoding	CJ/T215-2005	Industry	2005
	Technical code for urban municipal supervision and management information system	CJJ/T106-2005	Industry	2005
	Technical specification for real estate market information system	CJJ/T115-2007	Industry	2007
	Technical specification for urban fundamental geographic information system	CJJ100-2004	Industry	2004
	Standard for urban geospatial framework data	CJJ103-2004	Industry	2004
	Standard for urban planning data		Industry	/
	Electronic engineering construction standards		Industry	/
	Standard for building information platform data		Industry	/
	Building Information Model		Industry	/
	General standard for construction geographic information system software		Industry	/

Ministry of Water Resources	Specification on basic information coding of water conservancy projects	SL213-98	industry	1998
	Equipment of automation system for hydrological measurement and forecast.relay meter	SL/T181-1996	industry	1996
	Equipment of automation system for hydrological measurement and forecast.preset communication controller	SL/T182-1996	industry	1996
	Equipment of automation system for hydrological measurement and forecast.remote measuring terminal meter	SL/T180-1996	industry	1996
	The methods of model and nomenclature for hydrologic instruments and automatic system of water resources and hydrology	SL108-2006	industry	2006
	Norm of water Information System preliminary design report	SL/Z332-2005	industry	2005
	Norm of water Information System feasibility study report	SL/Z331-2005	industry	2005
	Standard for Hydrological Information Code	SL330-2005	industry	2005
	Water Information Network Node name and IP address allocation provisions	SL307-2004	industry	2004
	Specification for radio technical regulation of water department	SL306-2004	industry	2004
	Specification for radio technical regulation of water department	SL305-2004	industry	2004
	Guideline for telecommunication service of water department	SL292-2004	industry	2004
	Technical specification for hydrologic data acquisition system	SL61-2003	industry	2003
Ministry of Railways	Code for design of railway transportation management information system	TB 10081-2002	industry	2002
Ministry of Communications	Road traffic information collection. Classification and code of message	GB/T 20133-2006	national	2006
	Road traffic information collection. Incident message sets	GB/T 20134 - 2006	national	2006
	Design code for computer management and control system of container terminal	JTJ/T282-2006	industry	2006
	International Container transport of EDI --Transportation planning and implementation of the information message	Under Announcement	national	2006
	International Container transport of EDI -- Go out into containers report	Under Announcement	national	2006

	message			
	International Container transport of EDI -- Container stockpiling report message	Under Announcement	national	2006
	International Container transport of EDI -- Link information message	Under Announcement	national	2006
	International Container transport of EDI -- Shipping outward message	Under Announcement	national	2006
	Carriers arrived notice message based on XML	GB/T 20534-2006	national	2006
	Carriers notice to leave message based on XML	GB/T 20535-2006	national	2006
	Consignment advice message based on XML	GB/T 20536-2006	national	2006
	Bill of landing message bases on XML	GB/T 20537-2006	national	2006
	Cargo handling and movement reports message based on XML	JT/T656-2006	industry	2006
	Electronic government platform for road transportation -- Classification and index of information	JT/T414-2006	industry	2006
	Electronic government platform for road transportation -- Cataloging Encoding Rules	JT/T 415-2006	industry	2006
	Electronic government platform for road transportation -- The structure of data exchange	JT/T 655-2006	industry	2006
Ministry of Land and Resources	Land consolidation and rehabilitation plan database standard	Trial	industry	
	Land use planning database standard for county	Trial	industry	
	Standard for Land Use Database — County Level	Trial	industry	
	Mineral resources programming database standard	Trial	industry	
	Agriculture land classification database standard	Trial	industry	
	Prime agriculture land database standard	Trial	industry	
	Requirement on integration of national land database	Trial	industry
